

HTML TAG REVIEW!

TAG	IS USED TO...	IT'S MOST IMPORTANT / COMMON ATTRIBUTE IS...	CLOSING TAG? (Y / N)	INLINE OR BLOCK?
<head>				
<title>				
<style>				
<body>				
<h1-6>				
<p>				
				
				
				
				
<a>				
				
				
<table>				
<tr>				
<td>				
<form>				
<input>				

HTML/CSS REFRESHER

Use the code snippet below to answer 1-6

1. What is this code most likely for? _____.
2. Find the multiple errors in this code. Circle them. How many were there? _____.
3. In CSS the _____ symbol calls to the attribute "class" and the _____ symbol calls to the attribute "id".
4. Define a CSS style that makes all the text: **Arial, bold** and **uppercase**.
5. Write the CSS code to make the "About Us" link (and only the "About Us" link) text color **red**.
6. Write the CSS code that will make the links background change to blue when you hover over them.

HTML CODE SNIPPIT

```
..
22 <ul id="main">
23   <li class="about_us">
24     <a href="index.html">about us</a>
25     <ul id="sub">
26       <li class="firm_history"><a href="about_us/firm_history.html">firm history</a></li>
27       <li class="contact"><a href="about_us/contact_us.html">contact | locations</a>
28       <li class="culture"><a href="about_us/culture.html">culture</a></li>
29       <li class="people"><a href="about_us/people.html">people</a></li>
30     </ul>
31   </li>
32   <li class="projects"><a href="projects.html">projects</a></li>
33   <li class="media"><a href="news.html">media</a></li>
34   <li class="studios"><a href="studios.html">studios</a></li>
35   <li class="resources"><a href="resources.html">resources</a></li>
36 </ul>
..
```
